

Planting and weeding project improves our entrance view

The board contracted with David Vincent to improve the looks of our entrance. He brought in Indian hawthorns, petalumas, holly ferns and three larger trees. His crew did preliminary weeding, removed diseased plants

and relocated several others. The project, including extra plants bought for the main entrance flower bed was less than \$5,000.

The irrigation system was upgraded and repaired.

Going With The Green

Suellen Forsyth and Darlene Snyder took matters into their hands to greatly improve the looks of our entrance flower bed. Lantana and caladiums were their plants of choice. Very nice! Thank you.

Celebration Invitations

Bonnie Reynolds, 1119 East, invites her Hillcrest Crossing family to a celebration Saturday, July 24. She is celebrating the completion of several projects at her home, including a porch project and landscaping.

She will serve light refreshments and receive guests between 9:30 and 11 a.m.

Dorann and Harvel Owens, 1193 East, have extended their invitation to us to visit their garden, which was recently part of the Botanical Gardens Tour. Since heavy rain dampened the original schedule May 16, Dorann asks that if anyone is interested in visiting their garden, call to arrange a time. 607-0601

Drivers still ignoring intersection sign

Obvious to those of us who live in Hillcrest Crossing, drivers along Hillcrest Road ignore signs to avoid blocking the intersection. And, with impunity. An officer was working the Grelot and Hillcrest intersection recently, ticketing drivers who did not have seatbelts fastened. Requests to have drivers ticketed for blocking our intersection, however, have gotten no response. Please drive carefully, and if you get a chance, call the city traffic department and complain.

Election coming up

Soon, you will be asked to participate in another election. HCHA board member terms for John Sellers, Joe Steen, Suellen Forsyth and Roy Carter expire this year.

A nominating committee has been formed and homeowners will soon be receiving notice of meeting time and those nominated.

The annual meeting will be held during late August.

Drivers still blocking our street.

Fall Party

We were unsuccessful in finding a host for our spring party. So, the invitation is open for anyone who would like to host a fall get-together in October. The association will provide the meat dish, drinks and ice. Those attending are asked to bring side dishes, dessert or salad. Please let the board know if you would be willing to host our fall celebration. E-mail me at jis301@jaguar1.usouthal.edu or call me at 633-4837.

New Plants and Landscaping

New plants, including several trees, have been added along our entrance.

Our irrigation system has been repaired and some sprinkler heads replaced to help with maintenance.

E-mail delivery of the newsletter and homepage

Provide us with your e-mail address and we will deliver the newsletter to you as a pdf. For quick and easy delivery, please e-

mail John Sellers at:
jis301@jaguar1.usouthal.edu

Report violations of city ordinances at 311

Often a board member will receive a call concerning violation of a city ordinance, such as a pet running loose.

Please, if you witness any such violation of a city ordinance call 311, unless it is an emergency. If it is an emergency, call 911.

A dog running loose in our neighborhood was hit by a car recently. The city was contacted only minutes before the

accident to report two animals running loose and chasing cars.

It is extremely important to notify the city agency involved as quickly as possible. Calling others to make the call only slows the process.

Operators at 311 will quickly connect you to the correct department and hopefully they will be able to respond before it is too late.

Fence replacements continue to spruce up the neighborhood

Front fence rebuilt between the Wolfe and Shumacher homes at the corner of South and West

YIELD SIGN: The city has informed the board it will not install a Yield sign at the intersection of East and South because traffic engineering reported no visual obstructions at the intersection to warrant a yield sign. Drivers not yielding, however, remain a problem. Please drive carefully.

Top Left: The solar-powered gaslight fixture fits, but leaves part of the slots at the top of the pole showing. Frank Reese (1192 East), who agreed to test the light for us, used electrical tape to seal the gaps.

Bottom Left: Reese said the light doesn't stay on all night and believes it may be too sensitive to street lights and other lights around it.

Photos by John Sellers

Solar power is a growing solution for many needs, and industry and homeowners, want to integrate this technology, which is environmentally friendly, into their energy choices. But, we all want to do this as practically as possible. This light project was conducted by the board to give our neighbors a chance to see a working model.

Above: Many have opted for replacement with electric lights, like the Carters at 6441 South. They are much more reliable. With electric lights, the wiring and labor may vary quite a bit, depending upon the availability of a tie-in connection and the distance from the house that wire will have to be run.
