

Thanksgiving: Celebrating Change

September's mix of heat and rain reminded us of tropical threats and ushered in the drier, but somewhat cooler, days of October.

Time changed. We had to fall back. The weather changed and we found ourselves getting ready for another grand time to celebrate mercies that are new every morning and blessings that hallow our days.

We shifted gears to save daylight. And now, we make plans for Thanksgiving, Christmas and New Years.

Hillcrest Crossing, in the midst of all the noise and haste, has cause to give thanks.

The Homeowners Association elected new board members and re-elected some. Others stepped back and thankfully welcomed those who joined and thanked those who have served and stepped aside.

New board members are: Gayle Carter and Billy Sims.

Sherry Robbins and Joe Steen were re-elected.

New officers are:

President: Gayle Carter

Vice President: Sherry Robbins

Secretary: Sherry Spires

Treasurer: Wayne Gay

At Large: Marsha DeAngelis

At Large: Joe Steen

At Large: Billy Sims

Marsha will continue to work with our land-

scaping contractor.

A special "Thank You" to Roy Carter who has served on the board for more than a decade.

Roy has been a faithful board member and has used his wisdom and experience to help the board serve the neighborhood well for almost 12 years.

**GIVE
THANKS**
FAMILY • FRIENDS • GRATITUDE

East gate, fence portions up for repair

Because of weather damage and age, the gate at the end of Hillcrest Crossing East has been selected for replacement.

The board approved the repair of the east gate and accompanying fence panels on either side up to the homeowners' yard fence.

Other areas are being considered for repair, including the retention area fence at the neighborhood entrance. Other retention areas will be considered in the future for fencing repairs.

The board is receiving project estimates.

New Sign for Recycle Paper Pickup “Monday,” Maybe

Jean Griffin and Wayne Gay have volunteered to be our source for announcement of pickup weeks of recyclable paper.

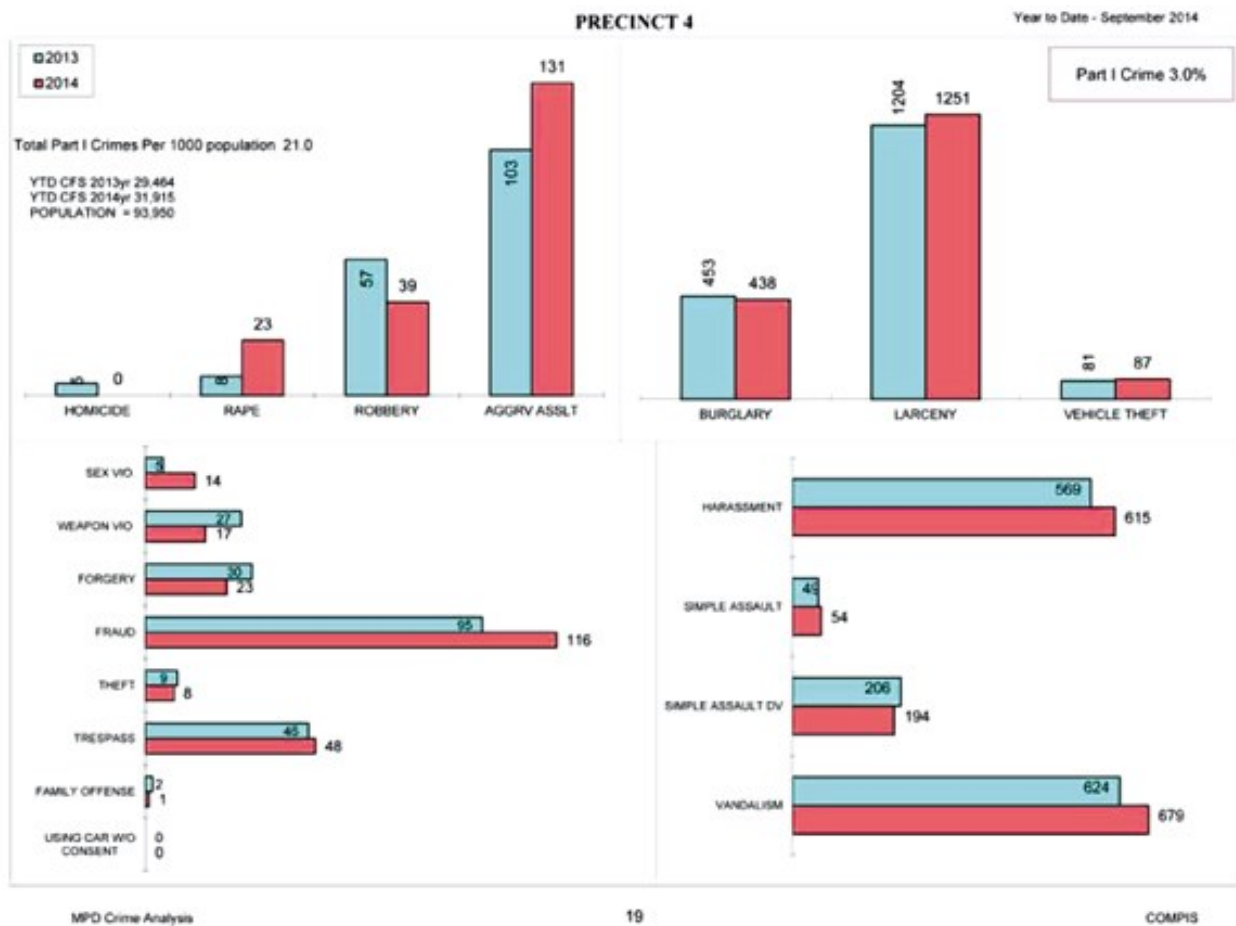

There have been problems with pickup not happening on Monday, for which it is scheduled. The company is a very small group of individuals and they are working in Baldwin

and Mobile counties. So, from time to time, they have weather and equipment problems.

Pickup is free and the company gets paid from sale of the paper they collect.

Watch for the “Recycle Monday” sign and recycle the paper when you can.

And, thanks to Jean and Wayne.

Fertilize lawn	\$15
*Power wash house	\$150
*Driveway extra	

Because of weather, some of the weeks listed may not be conducive to lawn maintenance. Lawn Care will meet all possible schedules, but reserves discretion during adverse conditions to reschedule.

Tips for getting ready for winter weather

Check for Leaks

Weather stripping and caulking is probably the least expensive, simplest, most effective way to cut down on energy waste in the winter. Check around doors and windows for leaks and drafts. Add weather-stripping and caulk any holes you see that allow heat to escape.

If your windows leak, consider replacing them with newer, more efficient ones.

Every duct, wire or pipe that penetrates the wall or ceiling or floor has the potential to waste energy. Seal them all with caulking or weather-stripping.

Electric wall plugs and switches can allow cold air in. Purchase simple-to-install, pre-cut foam gaskets that fit behind the switch plate and effectively prevent leaks.

Don't forget to close the damper on your fireplace when you are not using it. Close that damper - it's an effective energy-saving tip that costs you nothing!

Examine your house's heating ducts for leaks. Think of your ductwork as huge hoses, bringing hot air instead of water into your house. Mostly out of sight, ducts can leak for years without you knowing it.

Check Your Insulation

Insulate your attic. In an older home, that can be

the most cost-efficient way to cut home heating costs. Before energy efficiency standards, homes were often built with little or no insulation.

Weather-strip and insulate your attic hatch or door to prevent warm air from escaping out the top of your house.

Seal holes in the attic that lead down into the house, such as open wall tops and duct, plumbing, or electrical runs.

Check Your Heating System

Get a routine maintenance and inspection of your heating system each autumn to make sure it is in good working order.

Replace your heater's air filter as recommended by the manufacturer.

If your heating system is old, you might consider updating it with a more efficient model. You can cut your natural gas use.

Use a set-back thermostat. A set-back thermostat allows you to automatically turn down the heat when you're away at work or when you're sleeping at night.

Reverse the switch on your ceiling fans so they blow upward, toward the ceiling.
